

Dead In The Dirt

Dead In The Dirt Graffiti Magazine

The All Steel Edition

Mini Issue 3.5

Dead In The Dirt Magazine Mini issue 3.5

The All Steel Edition

Welcome to Dead In The Dirt, this issue has been a dream of ours for a while now. Thanks to everyone who has let us use their flicks, and especially everyone that has sent in flicks. Please keep them coming, we always send out free shit in return for flicks. If you haven't gathered, this issue is all about freights, this medium seems to be the fastest growing part of the graffiti world, and the best way to get your work travelling. If you are a railfan, or just like taking flicks in or around yards send those flicks too, we are all pretty big nerds here.

Look for issue 4 soon, back to the same format as before, a good mixture of everything with a nice chunk of euro walls and trains. Send us money and we will send you nice stuff. Issue 1, 2 and 3 are still available, along with the Railfan Sketchbook of train outlines.. Mags are \$2.50 ppd and the sketchbooks are \$6 ppd.

Stay Up.
